E-Commerce & Cyber Security Challenges In digital India, RKDF University

RKDF Media News Dt. 26-09-2018

Presenter: DR. R.K.S PIPPAL (DEAN, FACULTY OF ENGINEERING & TECHNOLOGY)

In the dynamic landscape of digital India, E-commerce has ushered in a new era of convenience and accessibility for consumers and businesses. However, this digital revolution is not without its challenges, particularly in the realm of cyber security.

As E-commerce continues to grow exponentially, cyber threats have also multiplied. Cybercriminals employ sophisticated techniques to exploit vulnerabilities in online platforms, leading to data breaches and financial fraud. The protection of sensitive customer information has become a paramount concern.

Data privacy and compliance with regulations are critical issues that demand immediate attention. The exchange of personal data during online transactions necessitates robust security measures to safeguard against unauthorized access and misuse.

To tackle these challenges, E-commerce businesses must prioritize cyber security. Implementing secure payment gateways, encryption protocols, and multi-factor authentication can bolster defenses against cyber threats. Regular security audits and employee training are essential in fostering a cyber-aware culture within organizations.

Collaboration between government agencies, industry players, and cybersecurity experts is crucial to develop a comprehensive and proactive approach to cyber security. By fortifying the digital infrastructure and raising cyber awareness, digital India can continue to thrive securely and empower a safe and confident E-commerce ecosystem.

E-Commerce & Cyber Security Challenges In Digital India, RKDF University

RKDF Media News Dt. 26-09-2018

Presented By: DR. R.K.S PIPPAL

The seminar on "E-Commerce & Cyber Security Challenges in Digital India," with a special focus on Intellectual Property Rights (IPR) rules in the field of cyber security, presented by Dr. R.K.S Pippal, was an eye-opening event that delved into the complex intersection of e-commerce and the imperative need for robust cyber security measures in the digital landscape of India.

Dr. Pippal, a distinguished expert in the realm of cyber security, provided a comprehensive understanding of how IPR rules play a pivotal role in safeguarding digital assets and innovations in this domain. He shed light on the legal and ethical aspects of intellectual property protection, emphasizing its importance in a world where cyber threats are ever-evolving.

The speakers underscored how businesses operating in the e-commerce sphere must navigate a challenging landscape of cyber threats, data breaches, and intellectual property theft. Dr. Pippal's insights equipped attendees with essential knowledge on how to protect their digital assets and innovations while thriving in the burgeoning e-commerce ecosystem of Digital India.

The seminar was a valuable resource for professionals and organizations seeking to fortify their cyber security defenses and navigate the intricacies of IPR rules in the digital realm. Participants left with a heightened awareness of the cyber security challenges and opportunities that lie ahead in the digital transformation of India.

Another Feather in Our Cap through Patents

The university feels proud to honour following faculty members who have filed their patents and were publishing during academic year. The contribution has added feather in the cap of RKDF University.

Name of the Teacher	Patent Number	Title of the patent	Year of Award / publish of patent
 Dr. Mohan Lal Kori, Department of Pharmacy, RKDF University, Gandhi Nagar, Bhopal MP-462036, India	201721014382	Radioprotector potential of methanolic extract of Alpine zerumbet against ionizing radiation	2018 - 19
 Dr. Ravi Kumar Singh Pippal, Department of Engineering & Technology, RKDF University, Bhopal, Madhya Pradesh	201721024152	An apparatus and method based on use of linear interpolation for automated drip irrigation system in agriculture using wireless sensor network	2018 - 19
